mos
design

L'artigianalità è la caratteristica che contraddistingue tutti i prodotti di Mos design.

Ogni oggetto viene creato, modellato e dipinto esclusivamente a mano nel nostro studio di Roma, rendendo ogni pezzo unico. L'improvvisazione creativa unita all'innovazione dà vita a oggetti esclusivi ed emozionali. Crediamo che gli oggetti creati con passione e con una lavorazione antica assumano un significato simbolico che va oltre la loro struttura fisica. Il nostro lavoro è una continua ricerca stilistica e tecnica, alla ricerca di un equilibrio tra arte, design e artigianato.

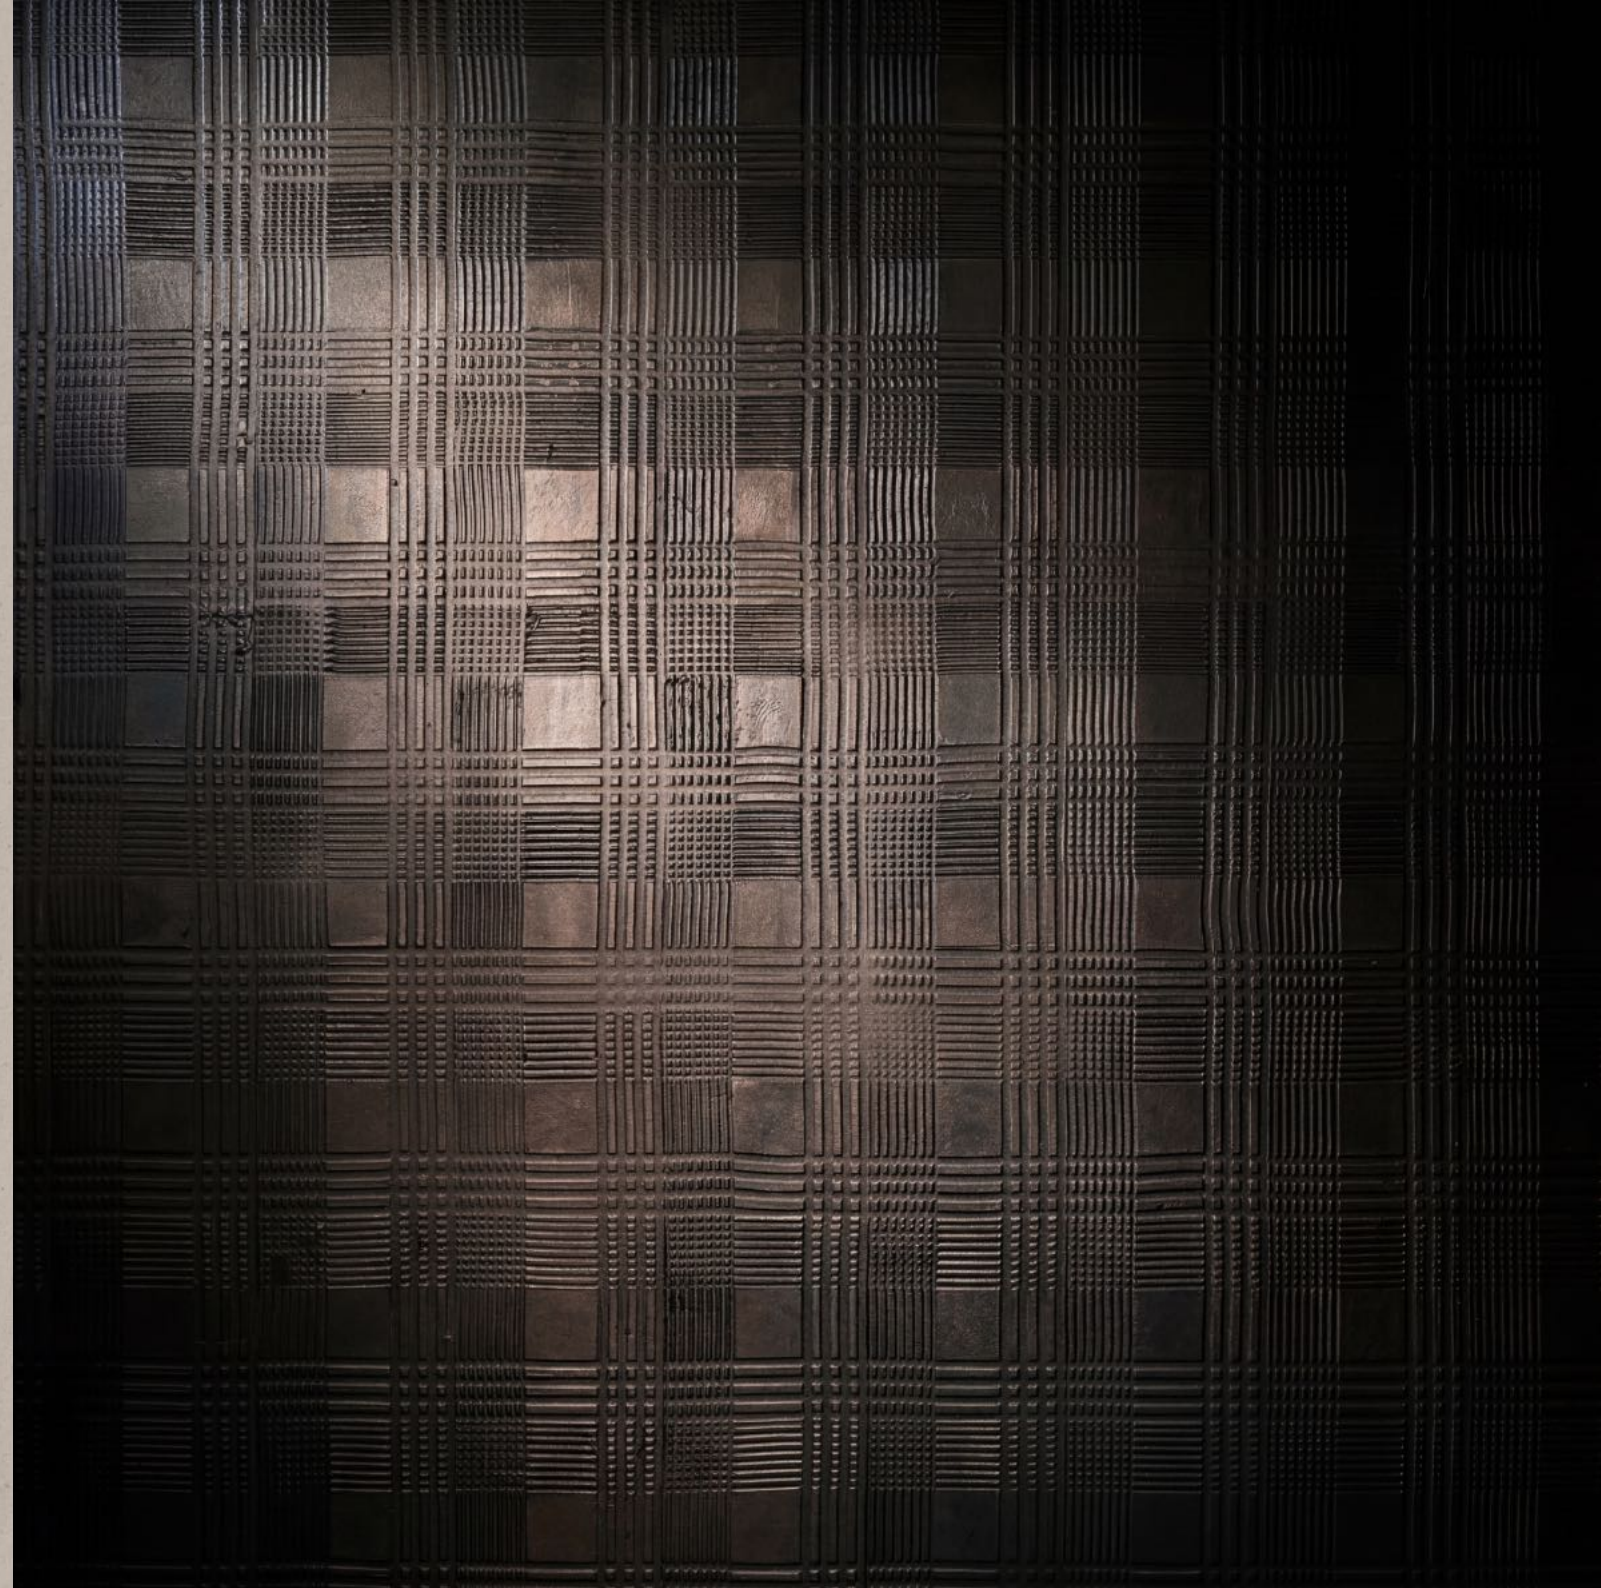

Craftsmanship is the distinguishing feature of all products by Mos design.

Every item is exclusively created, shaped and painted by hand in our studio in Rome, making every piece unique. Creative improvisation combined with innovation creates exclusive and emotional items. We believe that objects passionately created with ancient workmanship take on a symbolic meaning beyond their physical structure. Our work is a continual stylistic and technical research, in search of equilibrium among art, design, and craftsmanship.
